C. RATIONALE OF THE SCHEME

Transferee Company has participated in several Geographical Area (GA) bidding rounds conducted by Petroleum and Natural Gas Regulatory Board (PNGRB) for expanding its city gas distribution businesses in multiple locations. The Company could get authorisation only for one geographical area i.e. Raigad District through PNGRB bidding round in 2014, post that despite participating in all subsequent bidding rounds the Company was not successful in securing new geographical areas. Further expansion into new geographics by the Transferee Company beyond the existing three geographical areas was constrained post completion bidding for all areas and award by

the PNGRB. Thus, further growth was possible only by acquiring ongoing city gas distribution businesses. The Transferor Company's business was available for acquisition only via purchase of shares held by the erstwhile promoters who appointed a banker to search for interested entities in purchase of their business through competitive bidding. Accordingly, this acquisition was done by the Transferee Company to expand its presence in different geographical locations to strengthen its position in the city gas distribution business and the Scheme is proposed as a part of consolidation strategy within the Group. Thus, Transferee Company seeks to merge the Transferor Company for consolidation and expansion of city gas distribution business. The Transferee Company, as on the appointed date, is a direct wholly owned subsidiary of the Transferee Company and engaged in similar line of business viz., city gas distribution business in different geographies in the State of Maharashtra and Karnataka. The objects / rationale of the proposed Scheme is as under:

- The merger of Transferor Company into Transferee Company will result in operational synergies resulting in cost optimization;
- The Scheme will also achieve rationalization of costs by simplification of management structure leading to better administration and cost savings;
- Reduction in managerial overlaps which are necessarily involved in running multiple entities operating in similar line of business;
- More efficient utilization of capital for enhanced development and growth of the consolidated city gas distribution business in one entity;
- Rationalization of the holding structure by way of reduction in the number of entities and streamline the structure of Transferee Company;
- Providing an opportunity to leverage combined assets, capabilities, experience, expertise, infrastructure of both Companies enabling optimum utilization of existing resources and economies of scale;
- Economies of scale, greater integration, greater flexibility, most effective network
 and greater market reach as per the GAs allotted to both Companies for the
 amalgamated entity will improve the competitive position of the combined entity.
- Improved cash flows and more efficient utilization of capital, human resources and infrastructure to create a stronger base for future growth, enhance future business potential, and achieve greater efficiencies, productivity gains and advantages by

pooling of resources of the group Company thereby significantly contributing to the future growth and maximizing shareholder's value; and

 Significant reduction in the multiplicity of legal and regulatory compliances required at present to be carried out by Transferor Company, and greater financial strength and flexibility for the Transferee Company, which would result in maximizing overall shareholder value.

In view of the above, the Scheme will be beneficial and not prejudicial to the interests of the shareholders, employees, creditors, customers and other stakeholders of the Transferor Company and the Transferee Company, and there is no likelihood that the interests of any stakeholders would be prejudiced as a result of the Scheme.

Accordingly, this Scheme is being presented for amalgamation of the Transferor Company with the Transferee Company and their respective shareholders and for various other matters consequential, incidental, supplemental and / or otherwise integrally connected therewith pursuant to Sections 230 to 232 and other applicable provisions of the Act read with rules & regulations framed thereunder.
